

Southeast Michigan iSeries User Group

Date: Wednesday, February 16th ← It's WEDNESDAY this time.

Time: 5:30 (Deli snack)
6:00 (Meeting)

Location: IBM-Southfield
18000 West Nine Mile Road
Southfield, MI 48075
Room 1505

Speaker: Mike Pavlak

PHP Toolkit Functions (Beginner)

Many features of the IBM i operating system are taken for granted when developing RPG/CL applications. This session focuses on how developers can leverage the PHP Toolkit that enables access to many native IBM i features like data areas, spooled files, and native COBOL, RPG and CL programs. The toolkit makes the Zend PHP solution for IBM i one of the best options for application modernization as the attendee learns to mix and match PHP and RPG programs to develop a GUI front end for legacy and modern applications.

About the Speaker:

Mike Pavlak has been working with IBM midrange solutions since 1992 and IBM Mainframes before that. After years of developing applications using RPG, CL and PHP; he managed IT development and IT for power protection manufacturer Tripp Lite. Recently, Mike has joined Zend as a Solutions Consultant working with the i5 sales team and spreading the news about Zend solutions in the IBM midrange arena.

Dear Group Members:

We are excited to have Mike Pavlak visiting our group in February presenting PHP topic. PHP is an awesome fit for IBM i web development. It is well worth your while to attend and update your skills.

MITEC 2011 is well under way. This is the 6th year for the event. It will again be held at Schoolcraft College Vistatech Center in Livonia Michigan. We have a great line up of presenters including; Aaron Bartell, Larry Bolhuis, Jon Paris, Susan Gantner, Paul Tuohy, Charlie Massoglia, Mike Pavlak, Brian Mays, Debbie Saugen, Fant Steele, Bob Schuster, Jackie Jansen and a presenter for Toronto Labs. We will also offer 2 full tracks of AIX again this year. The event will offer a robust power packed day of education and an affordable price. The event will again include a vendor showcase and attendee raffle. We are very pleased to have Guy Paradise World Wide IBM i Offering Manager starting the event off with an opening session that will include IBM i directions, roadmap and strategy. This session will cover the latest features and functions delivered with IBM i 7.1, as well as enhancements for PowerVM, PowerHA and DB2 for IBM i. We will also share investments strategies and directions for IBM i and Power Systems. Registration for MITEC will be open later this month. Conference event updates are in progress. For details visit the conference website www.gomitec.com.

If you haven't done so already be sure to renew group membership. The registration form can be found under the site membership tab.

We look forward to seeing you at February's meeting.

Regards,
Laura
