## Web Query hands on project big reveal

---

**Date:** **Tuesday, November 27th**

**Time:** 5:30 (Deli snack) - 6:00 (Meeting)

**Location:** IBM-Southfield  
18000 West Nine Mile Road  
Southfield, MI 48075 ([map](#))

**Speaker:** Jackie Jansen

**Notes:** Jackie will be on site. If you are not able to join in on site you will be able to join in remotely in webinar format.

The November meeting will be the “Big Reveal” for Hands on Web Query participants to show their completed projects. The Web Query project kicked off at the October user group meeting started with meeting attendees seeing a review of the newest version of Web Query. Web Query recently has been greatly enhanced. Participants started the Hands on activity starting with learning how to use Web Query and moving on to live projects submitted by 2 member organizations. The projects include dashboards with drill downs, mobile application and iPad application.

The Big Reveal will be a great way for participants to show off their new skills gained through the Hands on Web Query activity and also a great way for members that didn't participate in the hands activity to see what can be done using Web Query. You'll be sure to gain insight into the learning process and what can be accomplished using Web Query.

The projects will be presented by Web Query participant teams and evaluated for use by the organizations that submitted the projects.

## About the Speaker:

Jackie Jansen is the IBM i Solutions Manager for Information Builders specializing in DB2 Web Query. Jackie spent 30 years with IBM working with small and medium enterprises. For the last 15 years she specialized in database and Business Intelligence in the IBM i / AS/400 marketplace. Jackie is an author and a frequent speaker at Technical Conferences and User Group meetings around the world. Contact her at [jjansen@ca.ibm.com](mailto:jjansen@ca.ibm.com).

## From the President:

---

### Dear Members:

The Web Query hands on project is going well. We are sure to have an exciting meeting in November. Please note the date. The meeting is scheduled after Thanksgiving to allow teams time to complete projects for the big reveal.

Jackie Jansen will be onsite for the November meeting. During the meeting we will preview the completed projects from the Web Query hands on activities. The meeting will also include open discussion about learning to use Web Query and the new features provided. There will be a project completed for DSN and CU Answers included. Team members have been busily learning and working on live projects. The projects include using the latest version of web query and include mobile component, ipad application, dash boards and drill downs.

A thank you goes out to Jackie for helping make this activity possible and also thanks to participants for all of your hard work.

Whether you participated in this project or are interested in Web Query or BI solutions the meeting will be time well spent. You may join on site or remotely in webinar format. Come join us and see Web Query in action being used on live user group member organization projects. Upon completion of the activity DSN will be implementing a Web Query application and CU Answers will use the completed project to answer the question will Web Query work to solve a current business application need.

It is time to think about membership renewal. Please fill out the membership renewal form found on the user group web site.

We look forward to seeing you at the very exciting Web Query big reveal!

Happy Thanksgiving.

Regards,

Laura
