## i Can Serve You - Providing Web Services from Your IBM i

---

**Date:** Tuesday, March 19, 2013

**Time:** 5:30 (Deli snack) - 6:00 (Meeting)

**Location:** IBM-Southfield  
18000 West Nine Mile Road  
Southfield, MI 48075 ([map](#))

**Speaker:** Charles Guarino

**Notes:** Meeting will be provided in Webinar format. Details on how to join in remotely will be provided prior to the meeting on the SEMIUG site.

Now that you've been consuming web services directly get ready to turn the tables and become the web service provider. Using IBM's Integrated Web Services server for ILE you too can launch programs to access your database and provide your system's information to external user such as web developers. We will go step by step through the process of creating a program to receive a parameter and return database values. Next we will implement this program on to the built-in web services server and demonstrate how to test and deploy it using IBM's graphical Web Administration tool. Since the tool is wizard-driven deploying web provider side web services is a snap!

### About the Speaker

With an IT career spanning over 30 years, Charles Guarino has been an enterprise application consultant for most of them. Since 1995 he has been founder and President of Central Park Data Systems, Inc., a Long Island based IBM midrange consulting company. He has published numerous technical and strategic articles for the IT community and speaks each year at conferences and user groups across the country. He was inducted into COMMON's Speaker Excellence Hall of Fame in 2008 and also selected as one of LISTnet's Long Island's Twenty Top Techies for 2009. In 2010 he was accepted as a national member of the National Speakers Association and is also an active member of the New York City Chapter. Charles is currently a COMMON Application Development Subject Matter Expert and President and monthly Q&A host of LISUG, a Long Island IBM System i Users Group.

## From the President:

---

### Dear Members:

We are excited to have Charles Guarino presenting Web Services topic in March. Charles is a frequent presenter nationally and also internationally at COMMON, IBM i conference events and local user groups. Web Services is a great tool to add in the mix within a modern IBM i environment. Come learn about using Web services on IBM i. You'll be sure to go away with a better understanding about this relevant and hot topic.

MITEC plans are well under way. Registration will open in March. We have an all star list of presenters again this year. The day is packed full with many options for developers and support staff. We will kick the day off with a presentation by Tracy Smith from IBM Rochester presenting Power Systems and IBM i Trends and Direction. Attendees have over 40 sessions to choose from. We have an all star line up of presenters including: Paul Tuohy, Rick Milton, Dave Levites, Doug Herman, Dean Woodke, John Bizon, James Lembke, Jesse Gorzinski, Brian May, Charles Guarino, Jackie Jansen, Larry Bolhuis, Ash Hariharan, Xuan Chen and Pete Massellio. The event will feature sessions on topics including: RPG, CLP, SQL, RDp, Rational, Client Access, Java, HMC, BRMS, AIX, Web Query, OS 7.1, Web Services, External Storage, CLM, VIOS, Power HA, BRMS, Geo Monitoring and Navigator. Visit the conference web site [www.gomitec.com](http://www.gomitec.com) for details. Come join us for a Power Packed day of Education!

If you haven't already done so please renew your group membership. Dues help make possible user group activities. As a SEMIUG member you are automatically a COMMON member, are entitled to participate at user group activities and provided a discount for MITEC. To renew membership visit the Membership tab on this site and download and fill out the membership renewal form at the bottom of the page. Dues are \$100 per organization or \$50 for individual.

The RPG Free for all meeting worked out so well in February we are planning a similar meeting featuring SQL in April. We ask group members to hop on the iDevcloud box and provide SQL examples to share with other group members. We will have an SQL expert on hand to join in the informal discussion and review of SQL on IBM i.

We are looking forward to seeing you on March 19th.

Regards,  
Laura
