

Date: Tuesday April 15th 2008

Time: 5:30 (Deli snack)  
6:00 (Meeting)

Location: IBM-Southfield  
18000 West Nine Mile Road  
Southfield, MI 48075

Speaker: Larry Bolhuis

### **What's New in V6R1**

Come see what's new in V6R1. There are a lot of exciting changes that you'll want to hear about. Larry has been working with the new release of OS400 in coordination with IBM for some time and will be able to share his cutting edge experience on the topic.

i5/OS continues to gain features, functions and capabilities and with V6R1 the parade continues! Already the most feature rich operating environment on any platform, join us to review the enhancements brought to the table by V6R1. We'll talk about security, networking, hosting, Blade and SAN support, and so much more.

### **About the Speaker**

Larry Bolhuis has grown up with computers since his father began repairing them in 1967. He has a bachelor's degree in Computer Science, and began working on IBM midrange equipment with the S/34 and S/36 in 1984. Larry began work on the AS/400 immediately following its introduction in 1988 and currently holds more than 30 IBM System i family Certifications. Larry has extensive experience with System i LPAR and the Hardware Management Console. Larry also has significant networking experience most recently with high speed Ethernet networks, 802.11 wireless networks and TCP/IP. Larry also works on routers and firewalls and works with Internet connectivity and security. Larry is a multiple award winning speaker at COMMON and an author for iSeries Experts Journal. He is a partner with Arbor Solutions, Inc. an IBM business partner in Grand Rapids, MI.

### **From the President.**

Please come join us and find out what's new. Our regular monthly meeting will be held at IBM in Southfield. Larry Bolhuis will present on what's new in V6R1. This is a meeting you don't want to miss. Please share this information with others. If you are new to SEMIUG join us as a guest.
