

Date: Tuesday, March 10, 2009

Time: 5:30 (Deli snack)  
6:00 (Meeting)

Location: IBM-Southfield  
18000 West Nine Mile Road  
Southfield, MI 48075

Speaker: John Earl

### **OS/400 Security Forensics 101**

If you had to reconstruct a crime scene on your IBM i or AS/400, could you? Would you know where to look? Are you capturing the right information? Where would you start? In this session we will take a methodical look at how to find the needle in the haystack, and how to preserve the chain of evidence in the event that you are involved in a legal matter. But whether you are using forensics for legal purposes or simply to debug an errant application, the skills learned in this session will be extremely valuable.

#### **About the Speaker:**

John Earl is the founder and Director of Security Technology for The PowerTech Group, a Seattle Washington area IBM i security software company. He has published numerous security related articles and columns for industry magazines, has presented hundreds of iSeries security sessions at industry conferences and user groups all over the world, and is a three time winner of COMMON's Speaker Excellence award. He is a former Board of Director for COMMON U.S., and currently serves as the Security Subject matter expert for COMMON.

Mr. Earl has been working with IBM midrange systems since 1980, with particular focus being devoted to the areas of Security and System Management. He is the chief architect for the PowerTech brand of security products, and is recognized around the world as a leading expert on IBM i security.

## **From the President:**

Dear Members:

We are excited to have John Earl visiting our group this month to present Security Forensics 101. Security is a topic of concern for everyone and you'll be sure to benefit from the presentation. John is a leading industry expert on the subject of security. You'll be able to enjoy the presentation as well as have an opportunity to ask questions on the topic of security specific to your needs.

Plans for MITEC 2009 are well under way and we have another power packed day of education at a very affordable price. The conference will be held on Tuesday June 2nd 2009 at the Henry Ford Event and conference center. There will be over 40 sessions to choose from throughout the day. The conference web site updates are in progress and will be posted soon. We have a very nice mix of topics to fit everyone's needs. Some of the topics included within the agenda are; PHP, RPG, SQL, CL, Rational tools, SOA, Disaster Recovery, Ops navigator, BRMS, .NET, AJAX, Rdi, RTCi, Back up recovery strategy and much more. The conference web site is [www.gomitec.com](http://www.gomitec.com). Registration will open in March and early bird rates will apply.

We will be providing a free registration for MITEC 2009 at the March, April and May user group meetings to one lucky meeting attendee (one per meeting). We will have a security presentation this month, BRMS next month and RPG Free in May.

We look forward to seeing you soon.

Regards,

Laura

## **Membership Renewals:**

It's time to send in your membership renewal for the 2009 year. As you know, the user group is the best education buy you can get. There is no other forum that provides 9 world-class sessions for as many employees as your company wants to send for only \$75 (and we even provide refreshments).

The "Membership" page is being updated as the renewals are received.

Thank you to all that have supported the group over the years.
