## Cool Things You Can Do with IBM DB2 Web Query

---

- Date:** Tuesday, May 16, 2017
- Time:** 5:30 (Deli snack) - 6:00 (Meeting)
- Location:** Cooper Standard  
2110 Executive Hills Court  
Auburn Hills, Michigan, 48326 ([map](#))  
**Use the front entrance.**
- Speaker:** Jim Bainbridge
- Notes:** [Cool Things You Can Do with IBM DB2 Web Query](#)

### Overview:

IBM DB2 Web Query for i. You probably own it. Are you using it? Did you know you can...

- Embed a Query/400 report in a spreadsheet?
- Replace 20 Query/400 reports with a single auto-drill down report for your business analysts?
- Place a map on a dashboard displaying key performance indicators by geography?
- Or check how up to date you are on Group PTFs?
- Create a visualization of data returned from a DB2 Stored Procedure or View?

This session will show you some of the cool things you can do with this IBM i web-based Business Intelligence tool.

### About the Presenter:

Jim Bainbridge is a senior managing consultant on the DB2 for i team in the IBM Systems Lab Services and Training organization. His primary role is training and consulting services for IBM DB2 Web Query for i and DB2 for i. Jim began his career with IBM 33 years ago in the IBM Rochester Development Lab, where he worked on cooperative processing products that paired IBM PCs with IBM S/36 and AS/400 systems. In the years since, Jim has held numerous technical roles, including providing IBM's independent software vendors with technical support on a broad range of IBM technologies and products, and supporting customers in the IBM Executive Briefing Center and IBM Project Office.

## From the President:

---

Dear Members:

We are very pleased to have Jim Bainbridge presenting

### **Cool Things You Can Do with IBM DB2 Web Query**

It has been awhile since we have had a web Query topic. There have been some great enhancements in recent years. Whether you are using Web Query or interested in data analytics the presentation will be well worth your while.

**Register Now!**

MITEC is nearing. We have a great day of education planned for local i colleagues. Choose from over 50 sessions including: PHP, RPG, RDp, Operations and Admin, Web development, DB2, SQL, Security, BRMS, Application modernization and much more. Register and mark your calendars for Monday June 5<sup>th</sup> and Tuesday June 6<sup>th</sup>. Discounts are provided to user group members. Take advantage of early bird discounts. See details at [www.gomitec.com](http://www.gomitec.com).

The event will feature students from local colleges. If you're interested in student resource or connecting with local colleges take advantage of participating at the student meet and greet session. The event will also include a vendor expo, vendor raffle, continental breakfast, snacks and lunch served by the Schoolcraft college culinary institute. Tracy Smith will be doing an opening session you'll want to participate in to hear about trends and direction on the platform. MITEC is a great opportunity to interact with other local community members.

## **IGNITE THE POWER**

There will also be workshops provided on Monday June 5<sup>th</sup>. The workshops include: RDp, RPG, Operations and Administration and PHP. We have a power packed event planned.

We have a DB2 presentation planned for the June user group meeting. Keep posted for details.

SEMIUG elections will be held in June. If you'd like to make a difference step up and run for the board or volunteer to help with group activities. It doesn't take much effort and has a big impact on our local community. If you're interested in volunteering contact any of the current SEMIUG board members.

We look forward to seeing you in May at the Web Query presentation and also at MITEC 2017!

Regards,

Laura
