You can also dial in using your phone United States: +1 (571) 317-3116
- One-touch: [tel:+15713173116,,698458837](tel:+15713173116,698458837)
- Speaker:** Pete Massiello
- Presentation:** [Cool Things in Navigator to be a Rockstar System Administrator](#)

Overview:

IBM Navigator for i is a powerful new tool to better manage your i environment. Get expert advice for installation and set up to make sure you get this powerful tool up and running at peak efficiency. Step through the functionality of this product and learn how to leverage the Performance Data Investigator to turn the collection services data into graphs you can use to identify performance issues. Learn ways to protect your system from intrusions, as well as close security holes such as FTP. See how this tool can help you select and install Logical files on your system to improve performance. Learn about the enhancements to this valuable tool in the release of version 7.3, while we see how this tool provides tips and techniques for better and more easily managing your IBM i.

About the Presenter:

Pete Massiello has been working with the AS/400, iSeries, IBM i since 1989, focusing on systems management and technical support. He has held numerous technical positions through out his career. He is the President of iTech Solutions Group, an IBM Premier Business Partner delivering solutions and services to IBM i shops throughout the world. He is a member of IBM's certification test writing team, an IBM Certified Systems Expert with certifications in IBM i Design, Administration, LPAR, Virtualization, Implementation, and HMC management. Pete has a BS in Computer Science from Hofstra University, and an MBA from the University of New Haven. He was President of COMMON from 2010 to 2012, and again in 2014. He is a COMMON Hall of Fame speaker, and a frequent speaker at user groups all over the world. In 2011 IBM established the Champions award for Power Systems, Pete was one of the first recipients. Recently, Pete was re-nominated as a Power Systems Champion in 2016.

From the President:

Dear Members:

Happy New Year! Welcome to a new and exciting decade. There is a lot of exciting happening in the technology world. It makes education, learning, understanding changes and what is available very important. SEMIUG strives to continue to bring local community members opportunities to see, interact and grow and looks forward to an exciting decade.

Looking back, we have a lot to be thankful for. We've grown over the last decade and also accomplished a lot. Thank you to all of the SEMIUG volunteers ,that have throughout the years put forth effort on behalf of SEMIUG and our local community. Thank you also to community members who have throughout the years shared, interacted and participated. Through the years we have together provided and experienced a lot of very exciting and informative activities. We look forward to continued growth and evolution.

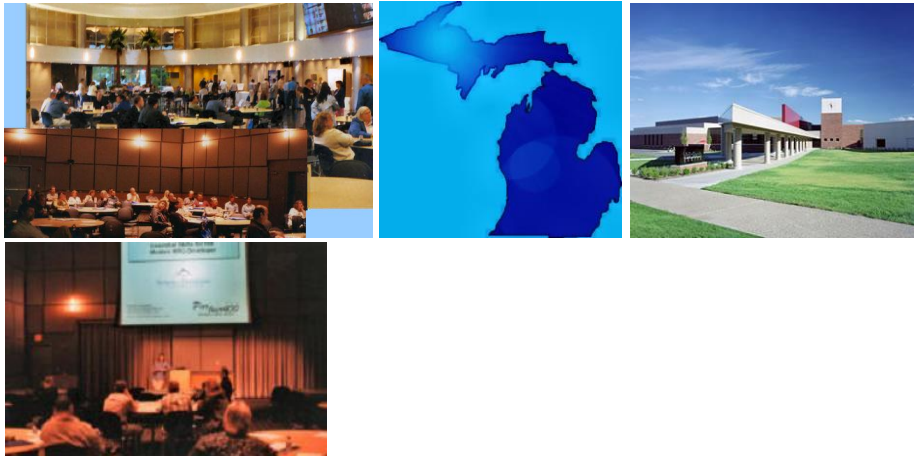

We are kicking off the year with Pete Massiello presenting "[Cool Things in Navigator to be a Rockstar System Administrator](#)". IBM continues to advance and deliver. We are pleased to have Pete presenting the topic and and look forward to community members participating in the

webex presentation meeting this month. You're sure to walk away with information that can help within your organization's environment. Navigator isn't just a tool for system administrators. Developers and power users can and do benefit from what is offered through navigator. Pete will be sure to share a lot of useful tips on how to benefit from what is offered through navigator. Hope we see you join in.

In February we are planning an RDi topic. Stay tuned for details. RDi proves to be a very useful tool. Not only does it provide programming tools but much more that can help you solve business needs.

MITEC plans are well under way. We have the dates set. Mark your calendar for Monday June 22nd workshops and Tuesday June 23rd conference. MITEC 2020 will deliver the same robust affordable local opportunity to learn and also to interact with colleagues. The event will be filled with plenty of sessions for all to choose from, feature students at the event, vendor expo, workshops and much more. We're planning some exciting new twists for this year also that will be shared as plans are finalized. If there are topics that you'd like to have included at the event please speak up. We are working on the agenda now and plan to have it complete in February. If there is a topic or subject area that you'd like to learn more about don't hesitate to make a request. To do so you can contact Laura at ubelhor@sbcglobal.net.

It's that time of year again. If you haven't paid your SEMIUG dues please do so. The dues are the same affordable price of \$50 for individual membership or \$100 organization. To renew dues you can find the renewal form on the bottom of the SEMIUG site membership page. Select the membership tab on the home page. If you have any questions or require additional information please reach out to anyone on the SEMIUG board. Dues help SEMIUG continue to deliver world class education opportunities.

2020 is starting off to be a decade to encourage exploration. Open source, AI, robotics, blockchain, modernization, next generation of resource are a few of the hot topics that are sure to be areas we explore and discuss through SEMIUG. Let's kick the year off with enthusiasm and excitement to venture into the new decade!

Happy New Year.

Regards,

Laura
