Things you probably didn't know you could do with Db2 Web Query

Date:	May 18th, 2021
Time:	6:00 PM
Location:	GoToMeeting Only
Speaker:	Doug Mack
Presentation:	Extending Db2 with Db2 Web Query

Overview:

The latest version and new editions of Db2 Web Query let you do even more than you thought you could! This session will cover some of the highlights of the new Version 2.3.0 including a new visualization creation facility called DESIGNER, the new Home Page, and our entree into adding machine learning models to generate additional insights into your data. A common statement of business intelligence pundits is that 70% of a BI product is in working with data, and we'll cover different approaches and what's new in data wrangling for analytics. Lastly, tips on using Db2 Web Query for systems and security monitoring of your IBM i environment!

About the Presenter:

Doug Mack is a Db2 for i Analytics Consultant in IBM's Systems Lab Services organization. In that role he serves as Db2 Web Query Product Manager and leads the consulting team providing Db2 for i expertise. Doug is a regular speaker at customer events including COMMON, IBM Technical Conferences and Executive Briefings and has written many articles and white papers on the attributes of Db2 for i for analytics. You can follow Doug on Twitter @mckdrmoly or his blog at Db2webqueryi.blogspot.com.
