## IBM i 7.4 Enhancements

---

**Date:** Tuesday June 15th, 2021  
**Time:** **6:00 PM EST**  
**Location:** GoToMeeting Only  
**Speaker:** Dan Sundt  
**Presentation:** [IBM i Administrative Security Risks](#)

### From the President:

---

SEMIUG Members,

Can you believe it is already June. So glad that summer 2021 is here. We'll close the SEMIUG 2020/2021 year with a bang. We look forward to our upcoming June meeting. This month we will have Dan Sundt from IBM presenting 7.4 Announcements. IBM has added many enhancements and all will benefit from the insight into what enhancements will be available with 7.4. The meeting will be presented in virtual

format. <https://global.gotomeeting.com/join/407364733> Details will be posted on the user group web site [www.semiug.org](http://www.semiug.org). The meeting will begin at 6pm on Tuesday June 15<sup>th</sup>.

We will break for the summer in July and August and start again in September.

We will not have a MITEC event this year. We are hoping to have a special face to face event in the fall. Stay tuned for details.

At the June meeting, we'll be voting for the 2021-2022 SEMIUG Board members. Positions are President, Vice President, Secretary, Treasurer and Directors (4+), and Web Master. The term runs from July 2021 to June 2022, however, we break for the summer. There are no monthly meetings in July, August or December. The amount of time involved with becoming a board member is minimal.

The board will meet once during the summer to discuss the upcoming SEMIUG meetings and topics. After topics are discussed, each board member is assigned primary responsibility for 1 or 2 meetings, as well as secondary responsibility for a meeting or 2. Primary responsibility includes aligning a presenter and setting up the meeting and secondary responsibility usually includes providing a deli snack for the meeting. We've had a lot of great speakers in the past and have a lot of connections, so aligning the meetings is quite easy.

The amount of time involved is minimal, so we'd like for everyone to consider! If you're interested in running, please send an email to Amanda Smith, [asmith@consultechservicesinc.com](mailto:asmith@consultechservicesinc.com), or call 248-628-6800.

If there are topics that you'd like to see included in next years agenda please reach out to any of the current SEMIUG board members. We will continue to strive to bring current topics with great education value for IBM community members. Your input is greatly appreciated.

We are also looking for a webmaster to assist with posting user group information. It takes minimal time and would greatly appreciate a community member volunteering for the opportunity. The site is in place and information to be posted is provided.

With the 2020/2021 SEMIUG season ending we have much to be thankful for. SEMIUG strives to continue to bring education and IBM i community connection and interaction opportunity. We have experienced a unique year and have made the best of providing activities in virtual format. Thank you to the SEMIUG board for volunteering. Jim Thompson, Amanda Smith, Charles Nalbandian, Joy Chen, Ed Berryhill, Doug Rezanka and Richie Palma. Your volunteer efforts make a difference and are greatly appreciated. One thing constant with IT is change and unique times and circumstances often bring about more rapid change. The experience we have had recently has been no different. In a short period of time we are seeing rapid adaption and advancement including with IoT, Robotics, 3D printing, Opensource, Cloud and many other areas of technology. SEMIUG is dedicated to continue on in 2021/2022 doing what we do best for our local colleagues and IBM i community in bringing world class current education and much more.

We look forward to your participation at the June meeting and hope you enjoy the July/August summer break.

Have a great day!
